CUSTOMER SOLUTION REPRESENTATIVE

- IT Support Specialist with ~6 years of experience resolving complex technical problems across computer hardware, peripheral devices, and diverse software environments.
- Diagnosed and repaired hardware and software issues for approximately 500+ devices, including laptops, printers, and mobile systems, ensuring high customer satisfaction.
- Leveraged Linux fundamentals and scripting capabilities to automate troubleshooting processes and improve system maintenance efficiency.
- Delivered technical support and proactive assistance to diverse user groups, resolving network and operating system issues with moderate judgment and initiative.

WORK EXPERIENCE

Freelance

Creative & Tech Support Specialist

Sep 2019 - Present

- Utilized Python and C within Linux environments to develop automation scripts that streamlined repetitive technical tasks and system configurations.
- Resolved moderate to complex hardware and software issues through systematic troubleshooting and repair of computer components and peripheral devices.
- Analyzed and resolved technical problems across laptops, printers, and network services to ensure continuous connectivity and device functionality.
- Maintained trusted relationships with technical users by providing comprehensive responses to questions about services, products, and technical specifications.
- Assisted customers proactively to mitigate recurring technical issues by providing tailored recommendations and system improvements.

Oly Drugstore

Bizerte, Tunisia

Store Manager (Night Shift)

Sep 2025 - May 2026

- Operated the facility independently, adhering to established protocols and exercising moderate judgment to resolve immediate customer and operational concerns.
- Delivered customer-centric support by resolving complex queries and complaints, maintaining positive relationships with a diverse clientele.
- Troubleshoot and resolved technical hardware and software faults to minimize downtime and ensure seamless store operations.
- Coordinated site activities and mentored staff on effective communication and problem-solving techniques to improve service outcomes.
- Identified opportunities for process improvement by monitoring daily execution and providing feedback to management on business controls.

Self-Employed

Founder – Online Swimwear Shop

Feb 2019 - May 2023

- Developed and maintained a web-based database system for sales tracking, ensuring data integrity and effective business controls.

- Managed the full lifecycle of e-commerce operations, utilizing learning agility to adapt to new platforms and technical requirements.
- Collaborated with external vendors and technical partners to ensure seamless website performance and project outcomes.

PC-MANIA

Junior IT Support Technician

Bizerte, Tunisia
May 2020 - Sep 2020

- Served as a Technician specializing in the repair and maintenance of computer hardware, printers, and peripheral devices.
- Diagnosed and resolved technical problems of moderate complexity, involving hardware repairs and operating system troubleshooting.
- Provided comprehensive technical support and explanations to customers regarding specifications, repairs, and product features.
- Applied specialized knowledge of Windows and Linux operating systems to configure devices and optimize network connectivity.
